## SUDERMANN'S

### The Song of Songs

FIFTH edition now ready.

READ THIS: Sudermann's many dramas and novels may be regarded as merely preliminary studies for this, his masterpiece. It is the story of a beautiful girl, a girl who is loved by high ideals and great temptations on a noble embankment. Alone in the world, living and sympathetic disposition, she encounters successively social poverty, wealth and liberalism, false love, dazzling Bohemianism, perfect bliss, then commonplace Philistinism. How she stands for her high peaks and through dark valleys, how she resists and how she succumbs, are the stirring scenes of a novel incomparable in its decade.

Translated by Thomas Seltzer. 640 pages; \$1.40 net; postpaid \$1.55
